### SECTION B Answer 10 Questions

1. An equilateral triangle ABC has the following side

Find the value of a and x

2. Solve graphically the equations  $5x + 7y = 12$  and  $3x - 2y = 1$  for the values of  $x$  ranging between 0 and 3. Use  $2\text{cm} = 1$  unit on both axis.

3. Construct a triangle XYZ such that  $|XY| = 7.5$  cm  $\angle XYZ = 30^\circ$  and  $\angle YXZ = 105^\circ$ .

Measure : a.  $|XZ|$  b.  $|YZ|$

4. R is partly constant and partly varies with E. when  $R = 530$ ,  $E = 1600$  and when  $R = 730$ ,  $E = 3600$  (a) Find the formula which connects R and E (b) Find R when  $E = 1300$

(c) solve  $a - (7 - a) = 5$

5. The table below shows the mark distribution of twenty student in a mathematics test

Marks(x)	6	7	8	9	11	18	21
No. Of Students	1	2	4	5	3	2	3

Complete the following

(a) Mean

(b) Median

(c) Mode

2. The angle of elevation of an aeroplane from an observer is  $30^\circ$ . If the aeroplane is 350 m from the horizontal ground, how far is the aeroplane from the observer?

b. simplify the expression  $\frac{-2x-6}{3x+9}$

3. The following items were bought from the market by a house wife at the price indicated

Items	Amount(₦)
Beans	1,800.00

Meat	1,200.00
Yam	1,000.00
Rice	2,000.00

Draw a pie chart to represent the information

4. Solve the equation  $\frac{2t+5}{t-2} = \frac{7}{3}$

b. D is partly constant and partly varies with V, where V= 40, D= 150, and when V= 54, D= 192

(i) Find the formula connecting D and V

(ii) Hence, Find D when V= 73

5. Solve the equation  $2^{1/2} = \frac{10}{3p+7}$

b. Convert 11011 in binary to a number in Octal

c. Evaluate  $\frac{\frac{1}{3} + \frac{1}{4}}{\frac{1}{3} - \frac{1}{4}}$

6. The table below shows the distance and time taken to travel by a car.

DISTANCE(KM)	30	60	90	120	150	180
TIME(HR)	1	2	3	4	5	6

a. Using a scale of 2cm to 30km on the horizontal axis and 2cm to 1hr on

the vertical axis, draw the graph to show the information

b. Use your graph to find

i. The time taken to travel 135km

ii. The distance covered when the time taken is 5.5 hours

c. Make  $k$  the subject of the formula  $T^2 = \frac{4\pi(h^2+k^2)}{hg}$

7. A closed cylindrical tin has a base radius of 7cm and height 12cm. find

i. Its total surface area

ii. Its curved surface area

iii. Its volume (Taking  $\pi = \frac{22}{7}$ )

1. A sport event that an athlete does alone not as part of a team .... [a] poor event [b] swim event [c] field event [d] none of the above.
2. A ..... Is thrown in shot put by contestants [a] heavy metal [b] heavy metal ball [c] heavy metal stone [d] none of the above.
3. Javelin is held at the ..... [a] grip [b] hand [c] head [d] center
4. Pentathlon and decathlon are the same [a] yes [b] no [c] A and B [c] none of the above
5. .... is a field event played between two teams comprising eleven players each [a] table tennis [b] hockey [c] football [d] relay race
6. Female genital mutilation is usually carried out using a ..... [a] cutlass [b] shovel [c] rake [d] blade
7. Every member of the family has a role to play within the family [a]true [b] false [c] a and b [c] none of the above
8. Menstruation occurs in ..... [a] female [b] male [c] adults [d] kids

## COMPREHENSION

*Read the passage carefully and answer the questions on it.*

The most memorable experience of my life was an incident that occurred some thirty years ago when I was in the fourth form in the secondary school. In those days, the speech-making and prize-giving days were always a great event. It was always a day when the results of the promotion examinations were announced to the students after week of suspense.

The afternoon commenced with all the students taking their seats in the large hall, and the members of staff, led by the principal, filing in. There were also three guests, each of them an important figure in the town. The principal and the dignitaries made speeches admonishing the students to work hard in order to attain their goals. They the prize-giving commenced.

Soon, it was the turn of my class. For the overall best student, my name was called. This was not unexpected, the position having become almost identified with me. Amidst the clapping, I stood up and moved towards the principal whose outstretched hand held a fat book. I was already before him when he peered through his heavy spectacles, surveyed my figure and held back the book. There was a sudden silence. Students were amazed at this turn of events. Then he explained "you will have your prize when you pay your outstanding fees".

I stood there, almost petrified. Had I been warned of this disgrace I would simply not have stood up, let alone bothering to go forward. Suddenly, spontaneously, the students started clapping and hailing me. Thus, my return journey was more loudly cheered than the outward journey.

For the prize in English Studies and Mathematics, my name was also called. Of course, I sat still, but the students hailed on. Somehow their students' behaviour saved the day for me.

Poorly clothed, in torn tennis shoes and being a debtor, I was the talk of the school. The little fee I had paid that year was earned through menial jobs at weekend, supplemented with donations from some school mates. Father's financial difficulties had been aggravated by a protracted court case. He had no alternative but to ask me to withdraw from school and look for a job. This I had refused to do.

I had borne the cross gallantly until that day when the principal's action threatened to kill whatever courage remained in me, I ordered the tears to gush out to flood my sad face, but the ovations forced the spring to remain dry. I had the loudest ovation that day, the students' response to my plight was my own prize.

## **QUESTIONS**

- 1) Why were the students usually in suspense before the prize-giving day?
- 2) Why was the announcement of the writer's name as the winner of the best student prize not a surprise?
- 3) What two proofs are there in the passage to show that the writer was liked by his school mates?
- 4) Why was his father unable to pay his school fees?
- 5) Find another word or phrase which means the same as the following words as used in the passage.  
(i) amazed                      (ii) menial                      (iii) plight
